Sunday February 28th
Otley Churches Together
Asking questions about Justice

In the middle of Fairtrade Fortnight, Otley Churches Together is organizing an exciting day of events in collaboration with OFFER, Otley's Fairtrade action group. The events will have a focus on a range of justice issues relating to fair trade, debt relief and climate change. The outline plan for the day is as follows:

Morning 11am

The event will be launched with a joint service at the United Reformed Church in Otley.

Lunchtime 12.30pm

There will be a 'bring and share' community lunch.....just come along with a dish to share. Why not try to include one fairly traded product in your dish?

Afternoon

At 2pm Otley Churches Together will host a Question Time at which candidates for Leeds North West will be questioned about their attitudes and policies on the justice issues referred to above. There is likely to be wide public and media interest in this event given the imminent general election. Please consider raising a question with the candidates. Questions in writing by 1.30pm please.

During the afternoon there will also be stalls representing different groups an opportunity to see the film: The Age of Stupid and some art activities especially suitable for children and young people

Please join in for the whole of the day!
